DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended to correct typographical err as follows:

Claim 19 – replace “top” with –to--.

Allowable Subject Matter

2. Claims 1-58 are allowed.

3. Applicant's arguments filed 8/28/06 are persuasive inasmuch as the proposed modification would destroy intended adjustment function of the reference, thereby indicating non-obviousness of the proposed modification. Otherwise, it's further noted that claim 19 for example requires the latch system is on the first support and the tubular base element is releasably connectable to each of the first and second supports.
